

# EUROPEAN ELECTRONICS RECYCLERS ASSOCIATION

---

**EERA is the voice of WEEE recycling in Europe being the professional association for the re-use, recycling, and re-processing industry.**

## MEMBERSHIP INFORMATION

Published May 2022

EUROPEAN ELECTRONICS  
RECYCLERS ASSOCIATION

# THE EERA MISSION

**Our mission** is to achieve a level playing field for fair competition in the WEEE value chain, harmonisation of regulations, effective and efficient recycling, and reprocessing with the prevention of pollution, minimisation of emissions, and the production of high quality secondary raw materials and components.

**We envisage** a full recycling economy where WEEE is managed as a resource, where market actors cooperate along the value chain, providing better collection processes, high quality recycling, appropriate regulatory framework, eradication of illegal practices and product design integrating a life-cycle approach.

**Our vision** is for a resource efficient economy where WEEE is managed as a resource and is returned into the economy as a secondary raw material or as equipment prepared for re-use.

# Why you should be a member of EERA

EERA can help you with your *hands-on* WEEE re-use, recycling, and end-processing business. If you are in the WEEE industry, you will benefit from becoming an active member of EERA.

**Special Interest Groups act on topics of concern including:**

- > Plastics - POP, REACH and RoHS regulations and directives
- > Batteries in WEEE
- > EN standards
- > Circular economy issues / updates
- > Health & Safety – shared incidents and good practices
- > Critical Raw Materials
- > Waste Framework Directive
- > Waste Shipment Directive
- > Environmental Social Governance

**EERA endorses the interests of members through research and publishes position statements, including on:**

- > Proposed regulations
- > Unfair competition
- > Scavenging
- > Illegal export
- > Ineffective enforcement

## Membership benefits

- The EERA Secretariat understand member's needs, having been in the WEEE industry for many years
- EERA members have their views and concerns heard and directly addressed with relevant stakeholders
- EERA members receive regular news and contribute to relevant publications and EU proposals
- EERA members can participate in special interest groups dealing with issues that matter to them.
- EERA members can meet the leading EU WEEE recycling, re-use, refurbishment and end-processing companies for networking and business opportunities.
- EERA members can participate in opportunities visiting recycling operations in different European locations.

**... and much more**
